Respected Sir,

We are pleased to inform you that **M/s Amravati Power Transmission Company Limited** is constructing a 400KV Transmission line associated with Amravati Thermal Power Project, Amravati for evacuation of Power from proposed Power Plant.

The said transmission lines are being constructed as approved by Maharashtra Electricity Regulatory Commission and STU (MSETCL). We have received the following clearances as submitted u/r 1, for your ready reference

1. MERC License to APTCL for construction of Transmission line.
2. Grid connectivity vide letter MSETCL/CO/STU/302B/3460 dated 09.03.2010 from STU.
3. Gazette Notification
4. Public Notification in various News Papers.
5. Section 68 and Section 164 approvals as per Electricity Act-2003 from Govt. of Maharashtra.
6. Copy of Maharashtra Govt. GR regarding affected Land Compensation.

We would like to inform that , with the support of your good office and other concerned offices we have completed foundation and erection activities for all the locations situated in agricultural lands owned by farmers in Akola District.

In this regard we would like to mention that we have received approvals / NOC's for line construction from all the concerned statutory and Government agencies, namely, Power Grid, Railways , National Highway, Aviation, Forest Department except from Dr. Panjabrao Deshmukh Krushi Vidyapith (PKV). We have submitted our proposal on 28.02.12 and even after persuasion and continuous followup with the authorities from last fourteen months we have not received the approval for our construction proposal.

You are aware that, this transmission line is being constructed in the interest of the people of Maharashtra and largely in the National Interest. You are also aware of consequences of the delay in transmission line construction and its affect on the inter-state transmission grid, people of Maharashtra and people of this region

We have already conveyed our willingness to PKV for paying the compensation for crops, trees and land as per the government directives and established rules and regulations. All our works except for the PKV area have been completed and hence under **section 68 and section 164 of Electricity Act and Telegraph Act** and under the existing rules and regulations, we solemnly seek your kind intervention for approval of our proposal for construction before onset of monsoon of the above mentioned transmission line passing through the PKV agricultural land.

Thanking you and assuring you our best at all times,

Yours Faithfully,

For, Amravati Power Transmission Company Limited,

Ajit Ingole

General Manager-Transmission
